

NEW: TIMING CHAIN KITS

Metzger 
Autoteile

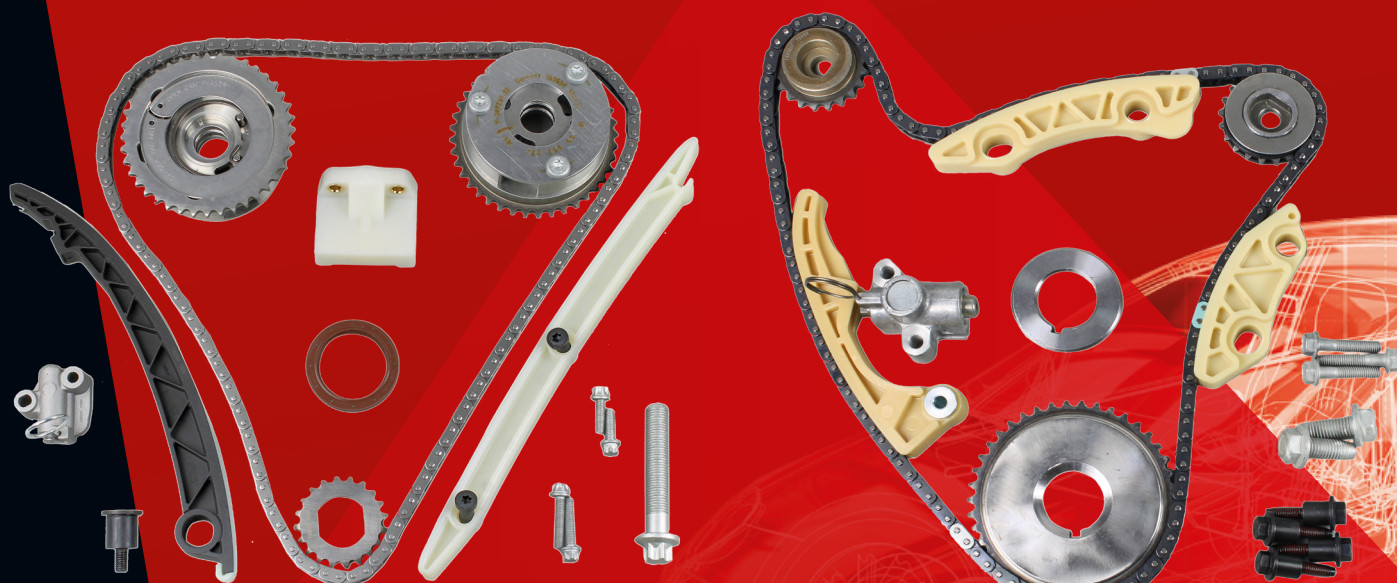

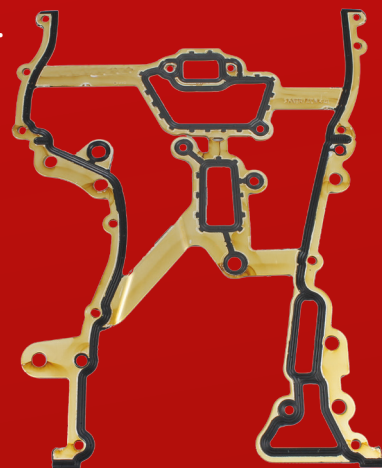

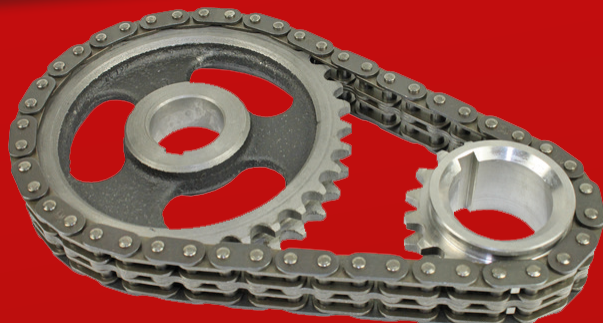

Typical wear parts for timing chain drives are:

- The timing chain itself
- Slide and tensioning rails
- Chain tensioner
- Gears
- Seals

In order to avoid any unnecessary subsequent repairs, it is obligatory that all components supplied (including screws and sleeves) can be replaced.

For quality reasons we have decided to extend our program by 65 sets, which are all **equipped** with **original timing chains**.

- **Tested quality and safety**
- **Immediately available**

**METZGER TIMING CHAIN KITS:
BEST QUALITY FOR MAXIMUM SAFETY**
